### A Secret Place, a History

When someone says Italy, you probably think the canals in Venice, Rome's Coliseum or the Duomo in Florence. But few know of the hidden paradise in the northernmost region of Italy. This is the South Tyrol region where Austria meets Italy.

A place where the robustness of German cuisine has been tempered by Italian finesse. *New York Times*

There are mountains, and then there are the Dolomites. From the pine forests, at a height of over 6,000 feet...These walls of rock overwhelm in their untamed beauty.

*New York Times*

"One of the most beautiful places on earth, and few still know about it."
